# Video Cluster Guidelines

1. Write your name and class period on the top of the page
2. “Cluster” images, words, thoughts and insights around the page
3. Include TWO quotes from the video (sentences-not simply words) and attribute them to the source (who said it)
4. Create and answer two questions about the video
5. Include a personal statement that gives your opinion and makes a connection between our social studies class and the topic of the video
